

Project by Best-team

Progress report 2

Team members:

Medeubekov Sergazy, Askhat Al-Aziz, Kadyrbekov Aslan

What have we done:

The three of us fixed some errors when working with the database and code functions and added some functionality to the login and registration pages, and also made a website template using bootstrap.

Created search with net/http, mysql query and templates

What we want to do:

We want to continue adding more functionality to user authentication, refine the search on the site, as well as slowly make the Market page.

In progress:

- Market page
- product template
- search by name
